

# ÖMER FARUK UYSAL

## PROFILE

Driven cybersecurity student specializing in offensive security and real-world attack simulations. Skilled in identifying and exploiting vulnerabilities to help organizations strengthen their defenses before threat actors can take advantage of them.

Known for a hands-on, curious approach to ethical hacking, red teaming, and technical problem-solving. Continuously expanding my knowledge in network security, exploitation techniques, and adversarial thinking to better understand and counter modern threats.

Committed to using offensive tactics responsibly to support stronger, more resilient cybersecurity environments.

## WORK EXPERIENCE

DECEMBER 2021 / MAY 2022 (INTERN)

### Webdeveloper / compu-factory

Haarlem

At Compu Factory, a company specializing in purchasing and reselling e-waste to developing countries, I worked alongside other interns to build the internal procurement and sales platform. I also contributed to developing the internal inventory management system, helping streamline and digitize core business operations.

---

DECEMBER 2022 / MAY 2023 (INTERN)

### Game Developer / AD1100

Amsterdam

Previously part of Dent Studios B.V., where I worked on multiple Unity projects using C#.

For my final assignment, I independently developed a Unity game, including both the graphics and the code under the guidance of Mr. Dotsenko.

Project: Asteroidal

Playable at: <https://1100ad.itch.io/asteroidal>

Additionally, I contributed to Covenant Project Zero, a 2.5D Unity game published on Steam, where I worked on gameplay mechanics and systems programming in C#.

---

JANUARY 2025 / PRESENT

### IT Consultant / Student aan huis B.V.

Hybrid

Provided onsite technical support for 20+ clients, including troubleshooting computer systems, networks, and digital devices.

Configured and resolved issues regarding hardware, software, and WiFi connections; implemented basic network security solutions and firewall settings to minimize risks.

Educated clients on secure online practices, enhancing their data protection and privacy.

Delivered customized solutions aligned with client needs, improving technical and communication skills.

## EDUCATION

AUGUST 2020 - JUNE 2023

SEPTEMBER 2023 - FEBRUARY  
2024

### Software Development

/NOVA COLLEGE ZIJLWEG

Completed with a specialization in C Sharp .NET application development and PHP full stack development.

 Diploma obtained

### Software engineering

/HOGESCHOOL VAN AMSTERDAM

Worked with TypeScript and PHP. Program not completed.

SEPTEMBER 2024 - PRESENT

### AD Cyber Security

/HOGESCHOOL VAN AMSTERDAM

Focused on practical, hands-on security, including networking, penetration testing, and defensive security.
